

Integrated Transport bushfire response

A collaborative Transport response to damaged infrastructure and delays on the network due to recent bushfires in NSW.

This demonstrates an integrated approach regardless of mode of transport impacting customers and communities.

Benefits

- This approach has been successfully executed in the ongoing management of fires across NSW
- ROM working across road, rail, bus and coach, with other division TMC/GS/SER/OoS/I&P/CS and externally with Emergency Services, local Government, Freight industry, tourism, and so on.
