

# How we are delivering Evolving Transport

## 1 One Transport

We started by joining together as one organisation to improve the outcomes we deliver for customers and communities.

## 2 Building the foundations

Together we defined our purpose, accountabilities, and interdependencies across divisions which enabled our new top-level structure.

## 3 Thirteen workstreams

The feedback and suggestions we received were grouped into the 13 key areas of transformation we need to deliver.  
**Now called 'workstreams' these make up the Evolving Transport Program.**

## 5 Our future

The Evolving Transport Program sets us up to deliver the [10-Year Blueprint](#) and [2056 Future Transport](#).

## 4 How we are delivering the Evolving Transport Program

**Workstream sponsor and leads selected based on their expertise**

**Steering Committee and / or working groups set up**

**Workstream commitments agreed and commitment project leads selected**

### Workstreams delivering commitments by:

- establishing timeframes
- setting up online engagement
- developing ideas
- doing research
- testing ideas
- developing new processes and frameworks
- establishing new ways of working
- monitoring progress
- managing the change impact
- communicating what's happening
- getting executive approval
- Moving the organisation to new ways of working

**Secretary and Executive Committee has oversight of the program**

**Workstreams completed a COVID-19 impact assessment and are adapting to changes**

**Workstreams deliver commitments and move to BAU throughout 2020**

**BAU work continues to embed the changes and new ways of working**
